**CENTRAL FAX CENTER**  
**APR 22 2008**

Remarks

In response to the Examiner's telephone call, Applicant was delighted to hear that the Examiner is willing to allow the case if claims 15 and 17 are cancelled. Applicant's attorney requested that at least one method claim remain among the allowed claims. Applicant's attorney proposed that claim 16 (a method claim) be included in the allowed claims. The Examiner stated that we should submit an amended claim 16, with the limitations of claim 1 set forth in the claim. Applicant submits this Supplemental Amendment in order to show the changes to claim 16 (which were not stricken through and underlined in the previous submission of 04/17/2008), and corrects a typographical error in claim 1.

Amendment to the Claims

Applicant respectfully believes that amended claim 16 should meet the Examiner's requirements.

In response to the Examiner's question regarding the term "multipole", please be advised that this term is not a typographical error. Applicant means a multiple number of poles, and hence, has advised this office that "multipole" should remain in the application without change.

Applicant's attorney wishes to thank the Examiner for his time, and looks forward to receipt of the Notice of Allowance for this application.

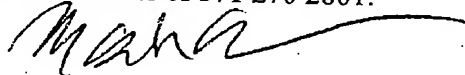

Respectfully submitted,

M. Robert Kestenbaum
